The above tables indicate that the sizeable number of colleges opted for no upward revision, maybe, for various reasons. We all know that society is facing an extraordinarily challenging time in this financial year due to the outbreak of a pandemic. Many families are in financial distress. Demand depression, high unemployment, jeopardized the economic well-being of millions. The managements of the educational institutions cannot remain oblivious to the above-ground reality. Therefore, the need of the time is to seriously consider whether to seek upward revision in the fee structure for AY 2021-22, or remain contented with the previous academic year's fees.
